

Maestro™ PLM Business Server

MANAGE PROJECTS

Manage your projects instead of recording them. Meaningful project reports, especially valuable for regulatory and compliance reporting.

DRAWING AND DOCUMENT CONTROL

Manage part numbers and revisions together with engineering and supporting documents. Comply with ISO 17025.

CORRECTIVE ACTION SYSTEM

Effectively manage issues with designs, processes and manufactured product. Comply with ISO 9001.

ACCOUNTING AND ERP SYSTEM

Realize efficiencies through integration of Finance, Engineering, and Quality Management systems.

- Provides visible, trusted, access to fundamental business information through application of efficient and consistent processes.
- Fully customizable and infinitely scalable. Interfaces to your existing systems and adapts as you grow and change. You are always in complete control of the software and your data.
- Fully functional and documented *Swift Construction Company* system for evaluation, demonstrations and training, and as a starting point for your own Maestro implementation.

Maestro™ Components

Make better faster decisions with timely access to trusted accurate information.

Visible trusted information provides clarity within an organization, empowering employees at all levels to make decisions and resolve problems without constant supervision and involvement from managers.

System Requirements

- Typical office environment with moderate temperature and humidity, conditioned 110V or 220V power (preferably using an uninterruptable power supply), and 100/1Gb Ethernet LAN connection.
- Offsite backup storage (e.g. removable USB drive, ftp or rsync access to remote file server, etc.).
- Typical enterprise network services, including a Domain Name Server (DNS), user authentication server (e.g. MS Active Directory®), and an SMTP mail server (e.g. MS Exchange® server with SMTP Receive Connector). If these services are not available on your network, Maestro Server can provide them for you. Maestro Server can also provide secure Virtual Private Network capability for remote file access if desired.
